

Loren Gayle

Software Engineer

SUMMARY

Creative, detail-oriented, and Innovative software engineer with a fascination in AI. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100Devs, Remote

March 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Baby Progress Tracker (Fullstack Web App) – Friends and Family from across the world can login and see the progress of the baby. With their profile they can comment, like, share, and support the child from anywhere.

BarTr (Fullstack Web App) – Users can login to their profile and post any product. They can then be able to trade with or buy products from other users with descriptions of the quality of the items.

Other Projects Include: Small Lakes Casino Virtual Slot Machine, NYC StarGazers Society APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more.

Full Stack Web Developer at G.Code Consulting | New York, NY

October 2021 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO and social media strategy. Some clients included:

Brittany Williams Dawn Laidford

Corrections Officer | New York, NY

August 2020 — September 2021

Using Data Structures and SOP to maintain and be accountable for inmate flow and assignments.

VOLUNTEERING

The One Community | New York, NY

August 2022 — Present

Helped organize community events as well as respond to Tickets/Queries by community members.
